

Condor – passion is our compass! And that's more than just a claim, it's our DNA: As Germany's most popular vacation airline, we take our guests to the world's most beautiful vacation destinations. Every year, over nine million passengers fly with Condor aboard our more than 50 aircraft to around 90 destinations in Europe, Africa and North America. From the fall of 2022, Condor will be the German launch customer for new long-haul Airbus A330neo aircraft of the latest generation, which, thanks to state-of-the-art technology, is the European leader in fuel consumption of 2.1 liters per passenger per 100 kilometers while offering the highest level of customer comfort. Our more than 4,000 employees on the ground and in the air give their best every day with passion, dedication and know-how and are writing the next chapters in our 66-year history. We are ready for take-off! Are you too? Become part of the Condor family now and apply for a job with us!

Manager Flight Operations (m/f/d) – OPS Manuals Support

Your future tasks:

- > Assisting the Head of Flight Operations Support, Fleet Chiefs, and other Fleet Managers in all administrative affairs, as well as operational and technical tasks
- > Creation / processing / revision of the SEP manuals / CCOM in cooperation with the Technical Pilots and the Training department
- > Supporting the processing / revision of the OM-B Airbus and Boeing, as well as the OM-A in cooperation with the Technical Authors and the Management Pilots
- > Supporting the operation and administration of the Airbus FlySmart Software as well as the FOMAX Hosted Gateway (connectivity solution provided by Airbus and Collins)
- > Creation of documentation for new aircraft / aircraft systems and technical changes
- > Liaising with all operational departments (e.g., Crew Planning, Operations Control Center and Dispatch, Ground Operations, CAMO, Cabin Services)
- > Taking on additional tasks and projects as needed

Your profile with a passion for aviation:

- > Master's degree in engineering or equivalent professional qualification with relevant experience
- > Extensive process related know-how of flight operations
- > Outstanding knowledge of aircraft systems
- > Flying experience / license desirable
- > Willingness to acquire knowledge of new IT-systems and software
- > Knowledge of XR Aviation, FODM and FrameMaker desirable
- > Outstanding skills of verbal and written expression
- > Proficiency in spoken and written English
- > Strong analytical, conceptual and critical thinking skills desirable
- > Independent, reliable and responsible working method required
- > Flexibility, teamwork and commitment required

This is what you can look forward to as part of the Condor family:

- > Atmosphere – through a friendly and motivated team and flat hierarchies
- > Excitement – through an interesting and varied job in a fascinating industry
- > Further development – through competent induction as well as training and development opportunities
- > Benefits – through attractive travel discounts and social benefits in addition to industry-standard compensation
