Who are we?

Largest “Board of Airline Representatives” worldwide; founded in 1951

Representing the political, economic, and operational interests of more than 100 international member airlines

Our airlines include business and leisure travel, as well as cargo and low-cost product

Maintaining regular exchange with authorities, ministries, politicians, airports, and key players in the industry

Giving advice on services within a well-established, international, cross-industry business partner network

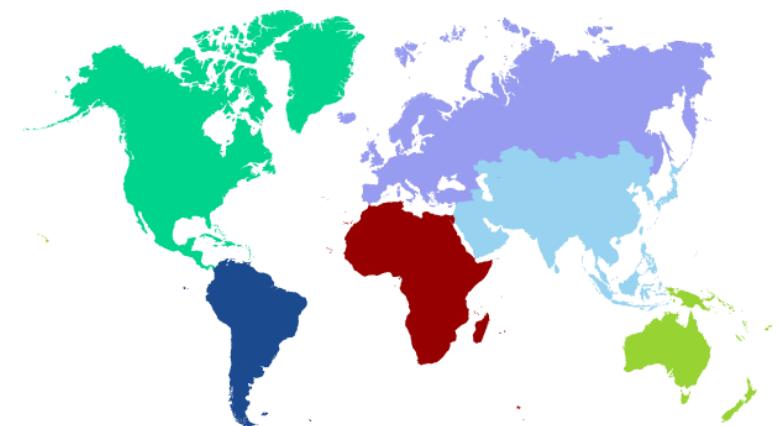

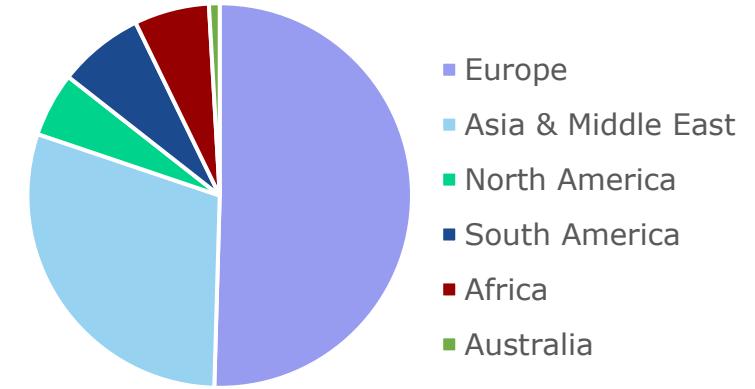

In 2019, BARIG airlines carried the major part of the 240 million passengers transported to and from Germany

In 2023, our cargo carriers transported the major share of the approx. 4.3 mio tons of air freight from Germany

Condor Flugdienst GmbH

[Company profile](#) [Contact details](#) [Jobs & Internships](#)

As Germany's most popular leisure airline, Condor has been taking its guests to the world's most beautiful holiday destinations for more than 66 years. Every year, more than 8m guests fly with Condor from the 9 largest airports in Germany, from Zurich in Switzerland and Vienna in Austria to around 90 destinations in Europe, Africa and America.

Condor operates a fleet of over 50 aircraft, which are maintained by the company's own maintenance operation, Condor Technik GmbH, according to the highest safety standards at the Frankfurt and Düsseldorf locations.

In spring 2022, Germany's most popular leisure airline unveiled its new brand identity: Condor stands for vacation and vacation stands for stripes. Inspired by parasols, bath towels and beach chairs, Condor now wears stripes in five colors. This clearly shows the development from a leisure airline to a unique and unmistakable vacation brand. The new design was unveiled with the first A330neo, which will take off for Condor from fall 2022. As the German launch customer, Condor will then be flying 16 A330neo long-haul aircraft. Thanks to state-of-the-art technology and maximum efficiency, the latest-generation 2-liter aircraft is the European front-runner.

Jobs & Internships

Career opportunities - take off with BARIG members: Our online job market offers job vacancies and internships in many challenging aviation areas.

BARIG airlines employ more than 100,000 people in Germany. Generally, the aviation industry secures more than 80,000 workplaces at airports, with airlines, air traffic control or in connected industries and services. Therefore, aviation is a major economic factor.
